

**ATTACHMENT A****Remarks**

In the Amendment filed on July 27, 2005, dependent claim 12 was amended to delete the word "preferably", together with other changes. This deletion was incomplete, as the following preferable limitation "a cooling of the air between the compressors and" was also meant to be deleted. Therefore, by this Supplemental Amendment, the complete/intended change to claim 12 is now made.

Further and favorable action consistent with the arguments and changes made previously are solicited.
